ABOUT ME

Web developer with 1+ year building AI-powered websites and automation systems. Experienced in React, Claude Code, n8n, and Supabase, delivering full-stack products that cut manual workload and drive measurable business results.

Education

BS in Information Technology (BSIT) — CEBU INSTITUTE OF TECHNOLOGY — UNIVERSITY

2020 – 2024

Completed coursework in information systems, digital communication, project management, and systems analysis. Developed strong analytical, organizational, and problem-solving skills through academic projects, collaborative activities, and practical training.

Experience

AI Executive & Project Coordinator

May 2025 – Jun 2026

Lifewood Data Technology — Philippines

- Built full-stack AI websites (frontend UI, REST APIs, PostgreSQL/MySQL/Supabase/Firebase) with Claude Code, React, Spring Boot, and Vercel.
- Cut manual workload through LLM-driven automation, RAG pipelines, n8n workflows, and advanced prompt engineering.
- Built AI chatbots with RAG-powered knowledge bases for customer support and lead capture.
- Part of the team that designed and built the official Lifewood company website.
- Drove SEO (keyword research, on-page optimization, content strategy) to grow organic traffic and rankings.
- QA testing — functional and regression testing, cross-browser and responsive checks, and bug reporting before launch.
- Produced AIGC assets (images, video, digital avatars) using Midjourney, Higgsfield, ElevenLabs, and DaVinci.

IT Intern

Jan 2025 – Mar 2025

Lifewood Data Technology — Philippines

- Supported live web and game projects while building core engineering fundamentals.
- Built web and game-based applications applying SDLC principles across design, development, and testing.
- Assisted in maintaining company websites and internal digital platforms.
- Prepared project documentation and reports, and organized digital project files.
- Conducted testing and quality assurance for internal digital projects.
- Strengthened debugging, testing, and version-control skills on real company projects.
